CASE STUDY

Royal Bath Hotel

About the Project

The Royal Bath Hotel, located in Bournemouth, holds a significant place as one of the area's most historic hotels. Since its grand opening in 1838, it has remained a beacon of elegance, and luxury hospitality. Positioned on the cliffside, commanding panoramic views of Bournemouth beach.

The Royal Bath Hotel Decking Replacement Project involved the removal and replacement of the existing decking structure.

The main scope of work involved the following activities:

- Removal of Existing Decking:
- Concrete Repair Spur Installation:
- Additional Repairs/Strengthening:
- Joist Protection and Installation:
- Decking Installation:
- Metal Handrail Support:
- Decoration: The completed decking was left in a state ready for decoration by others, ensuring that no further major works were required.
