CASE STUDY

Williams Court

About the Project

Williams Court is a retirement living scheme consisting of 40 self contained apartments for stonewater, a leading social housing provider.

This project was reconfiguration and refurbishment of a house within the block into two flats.

This involved

- Complete strip-out
- Layout change with new steel work
- Removal of staircase and blocking up opening
- Instalation of sound barrier betwek the two flats
- Relocation of windows
- complete re-wire and plumbing
- Adjusting current services and inroduction of new services to one of the flats.
