Christchurch

Duration:

3 Weeks

CASE STUDY

Christchurch Junior School

About the Project

Christchurch Junior School are a member of the Twynham Learning multi-academy trust, with 500 students.

This project was to create a cooking and art classroom in the Bluewater building. This consisted of complete external decoration with renewed plinths, removing two windows, a kitchen and an internal wall configuration.

We installed new vents, LED lighting and a large multi-media screen. The new Howden's kitchen comprised of 4x ovens and hobs and 2x sinks. This project took three weeks from start to finish.
