CASE STUDY

# Twynham School

## About the Project

A recently finished project in Twynham School, Christchurch.

This project was the refurbishment of stairs and corridors on ground and first floor in the Jenkins block.

**This involved**

- Fill all holes in the walls and ceilings
- Redecorate all ceilings, walls, window sills, doors and door surrounds
- Poly soft flooring
- New lighting
- Undertaking decoration to previously painted doors
- Remove existing timber dado rail, replace with plastic bump rail
- Remove the plastic sheeting (lower half of the walls) and replace with hygienic wall cladding
- Corner protective strips on all corners to the bottom of the board
