CASE STUDY

Winton Primary School

About the Project

This project was for the refurbishment of student and staff toilets at Winton Primary School, Bournemouth.

Having worked with Winton Primary School on Phase 1 in 2021 we were invited back to undertake Phase 2 in 2022. Phase 2 included full toilet refurbishment works, consisting of 3x pairs of student WCs and 1x staff WC. We are delighted to be building a valued partnership with the school and associated architects.
